

uPVC DOMED GRATING

Dome gratings are typically used for industrial and domestic drainage purposes. Its domed shape helps prevent clogging in drainage channels. It is easy to install and fits most sizes and standards of pipes. It is also an economical alternative to the cast iron type of domed grating.

Nominal Diameter (mm)	Dimensions (mm)			
	A	B	C	D
50	42	118	45	120
75	72	118	45	120
100	102	133	54	136
150	140	203	70	200
200	192	215	80	236
