

(G.I. Loop Hanger)

Designed to suspend non-insulated horizontal stationary lines and vertical adjustments are possible once the pipe is in place. The lower nut is tightened to adjust the line to the required elevation. The top nut must be properly tightened to ensure the proper performance of the hanger after the adjustment.

SIZE (mm)	R (mm)	D (mm)	H (mm)	Nut (mm)
40	49	1.0	94	3/8"
50	60	1.0	110	3/8"
65	78	1.5	120	3/8"
75	89.6	1.5	152	3/8"
100	114	2.0	178	3/8"
125	139.5	2.0	201	1/2"
150	178.5	2.5	239	1/2"
200	209	3.0	326	1/2"
250	269.1	3.0	413	1/2"
