

uPVC DOMED GRATING

Dome gratings are typically used for industrial and domestic drainage purposes. Its domed shape helps prevent clogging in drainage channels. It is easy to install, does not require glue application and fits AE, AW and SS213 standards of pipes. It is an economical alternative to the cast iron type of domed grating.

This fitting is available in grey or white.

Nominal Diameter (mm)	Measurements		
	B	C	D
2" / 50mm	118	42	120
3" / 75mm	118	72	120
4" / 100mm	133	102	136
6" / 150mm	203	140	200
8" / 200mm	215	192	236
10" / 250mm	260	250	288
